## 3. Your case for acceleration (in your own words)

Why do you want to accelerate, or continue, in this subject?

How does this subject connect to your future pathway (career, study, or personal goal)?

What strategies will you use to manage the additional workload?

Continuing applicants only – what evidence from your Unit 1 Study so far (work habits / results etc) demonstrate that you are ready for the demands of Units 3/4 and should continue with the course?

**4. Student and parent declarations**

**Student declaration**  
 I have read the conditions of acceleration. I understand that an accelerated VCE or VET subject is more demanding than a Year 10 subject, and that acceptance depends on the review panel and the Director of Learning and Teaching.

**Date:** \_\_\_ / \_\_\_ / \_\_\_\_

**Parent or guardian acknowledgement**  
 I acknowledge that my child is applying to undertake a Year 11 subject while in Year 10. I understand the workload and assessment expectations are greater and that continued enrolment depends on my child maintaining a committed approach to all subjects. I understand that some subjects may not run and my child, in this case, will be enrolled in their reserve subject.
